## HISTORISCHE FLIESEN

Wir sind eine Manufaktur, deren Stärke in den Leuten, die die Herstellung von historischen, handgeschütteten Steinzeugfliesen - Jugendstilfliesen (kein Zementfliesen) beherrschen, besteht. Solche Fliesenbeläge faszinieren uns in den Jugendstilgebäuden schon seit Ende des 19. Jahrhundert. Die besondere Technologie zur Herstellung der Replik von einer hochgesinterten, unglasierten, durchgefärbten historischen Fliesen aus Keramik geht von den ursprünglichen, mehr als 160 Jahre alten Rezepturen aus. Sie werden vor allem in den historischen Bauwerken und Gebäuden verwendet, die zeitgemäßen, stilvollen oder originalen Böden aus Keramikmaterial erfordern.

Der komplizierte Herstellungsprozess beginnt mit der Auswahl der Muster, Form und Farbe der einzelnen Arten von historischen Fliesen. Jedwede Muster können wir originalgetreu zu kopieren und dadurch sehr genaue Repliken von Keramikfliesen aus der Vergangenheit zu erreichen.

Trockenpresskraft von 100 Tonnen. • Hohe Bruchfestigkeit von 500 kg / Stk. • Toleranz  $\pm 2$  mm

Tiefe der Durchfärbung min. 4 mm • Verschleißfestigkeit 100 Jahre • Fliesendicke 15 mm

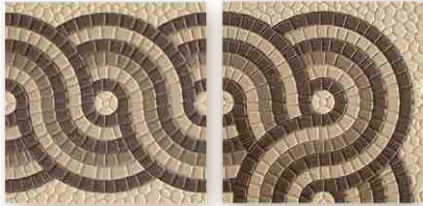

Sharp 24 - Stunden - Brennen. • Frostfestigkeit bis 0,2% Wasseraufnahme • R11

**100% HAND MADE:** Die Herstellung unseren Historischen Steinzeugfliesen ist Handarbeit. Sie erhalten höchste Qualität, natürliche Farben und jedes Stück ist ein Unikat. Leichte Farbdifferenzen sind ganz natürlich, und kein Reklamationsgrund, genau diese leichten Unregelmäßigkeiten verleihen den Fliesen ihren Charme. Danke für Ihr Verständnis.
